## Professional Summary

I'm a web developer, passionate about crafting accessible and user-friendly websites. With expertise in React for dynamic interfaces and Tailwind CSS for sleek designs, I ensure your site looks great on any device. Leveraging Git for collaboration and Firebase for backend needs, I'm committed to delivering top-notch web solutions.

## Skills

- **Programming Languages:** JavaScript
- **Frameworks/Libraries:** React.js
- **Backend:** Firebase
- **More Tools:** Tailwind, CSS3, Bootstrap
- **Version Control:** Git

## Professional Experience

### JavaScript Intern – Milkyway Coop, Muranga (Remote)

May 2023 – December 2023

- Developed a website for Milkyway Coop, and automated internal processes.
- I participated in code reviews and implemented feedback to improve coding practices.
- I was able to learn React which is a JavaScript library and use it to build projects.
- I also assisted in integrating Firebase services such as Firestore for database management and Firebase Authentication for user authentication.
